

CELESTE (CHIH-HSUAN) SHIH

celeste920130@gmail.com |  Celeste Shih | Bay Area (from Aug. 2026) | celeste920130.github.io

SUMMARY

M.S. in Software Management at Carnegie Mellon University (Silicon Valley). Product experience across a cloud-based AI assistant at Cathay Financial Holdings and category strategy at Southeast Asia's largest e-commerce platform. I turn ambiguous problems into clear metrics, and metrics into shipped decisions. Seeking 2027 Summer PM internships.

EDUCATION

Carnegie Mellon University, Mountain View, CA Expected Dec. 2027
Master of Science in Software Management (MSSM)
National Taiwan University (NTU), Taipei, Taiwan Sep. 2021 - Jun. 2025
Bachelor of Social Science in Bio-Industry Communication and Development, Marketing Focus

PROFESSIONAL EXPERIENCE

Category Management Analyst, Shopee, Taipei Jul. 2025 - Apr. 2026
Home & Living category | 5 subcategories | 50+ key sellers

- Diagnosed a multi-month sales decline by separating external cause from controllable factors, grew repurchase through buyer segmentation and a light-bulb cross-sell (the category's top add-on).
- Ran A/B tests and built subcategory dashboards for a category that grew 75% YoY in GMV.
- Built an Apps Script tool for weekly flash sale planning (250+ slots, ~NT\$6M weekly GMV), cutting a 4–5 hour process to 30 minutes (~9x faster); adopted by 4–5 other category teams.
- Led a top-SKU price subsidy using high-threshold coupons to close the competitor price gap and lift average order value. Grew revenue 10% MoM.

Cloud Product Management Intern, Cathay Financial Holdings, Taipei Jul. 2024 - Jun. 2025
"Smart Archie" | internal LLM assistant that turns dialogue into cloud architecture diagrams, reducing solution design time from days to minutes.

- Prioritized and shipped 4 features (V0.4.0→V0.4.1) by designing a scoring framework that aligned engineers and PMs on what to build first, resolving top UX pain points from user testing.
- Built a knowledge base of policy-compliant reference architectures (diagram-as-code) to ground Smart Archie's RAG output, and benchmarked 45+ AWS/GCP services into cloud adoption report.

Data Analysis Assistant, NTU OpenCourseWare (OCW), Taipei Feb. 2025 - Jun. 2025

- Redesigned how course-video quality is measured, replacing click-based evaluation with retention and completion metrics across 100+ videos (36M+ channel views).

Competitive Analysis Intern, Shopee, Taipei Aug. 2023 - Jun. 2024

- Analyzed 1,000+ livestream sessions using Excel automation to identify audience retention patterns and recommend content strategy for future campaigns.

PROJECTS

Job Intelligence Agent — TypeScript, LLM API | [Case study](#)

- Built an AI agent that aggregates internship postings from 6 sources, ranks them by LLM match score, and drafts resume-grounded application materials, cutting 30+ min of daily manual search.

Competitor Price Tracker — Python, FastAPI, Gemini Vision | [Case study](#)

- Built a tool that extracts product data from Shopee/momo screenshots via Gemini Vision and generates side-by-side price comparisons with one-click CSV export.

SKILLS & ADDITIONAL INFORMATION

- Product Skills:** Product Strategy, Roadmapping, User Research, Agile/Scrum, A/B Testing, Figma, Confluence, JIRA
- Technical & Analytical Skills:** Prompt Engineering, RAG, SQL, AWS, GCP, Python, Tableau
- Languages:** Mandarin (native), English • **Activities:** NTU Toastmasters (PR Minister), GIS Taiwan
