jamie920130@gmail.com |  Celeste Shih | Bay Area (from Aug. 2026) | celeste920130.github.io

SUMMARY

M.S. in Software Management at Carnegie Mellon University (Silicon Valley). Product experience across a cloud-based AI assistant at Cathay Financial Holdings and category strategy at Southeast Asia's largest e-commerce platform. Seeking 2027 Summer Product Management internships.

EDUCATION

Carnegie Mellon University, Mountain View, CA Expected Dec. 2027
Master of Science in Software Management (MSSM)
National Taiwan University (NTU), Taipei, Taiwan Sep. 2021 - Jun. 2025
Bachelor of Social Science in Bio-Industry Communication and Development, Marketing Focus
• Coursework: Big Data Analytics (A+), Statistical Modeling with Python & Excel (A+), Business Analytics

PROFESSIONAL EXPERIENCE

Category Management Analyst, Shopee, Taipei Jul. 2025 - Apr. 2026
Home & Living category | 5 subcategories | 50+ key sellers
• Identified light bulbs as the category's entry purchase through buyer segmentation, then converted the insight into targeted coupons and a curated decorative lighting section.
• Ran A/B tests and built subcategory dashboards for a category that grew 75% YoY in GMV.
• Shipped an Apps Script tool for weekly flash sale planning (**250+ slots**, ~NT\$6M weekly GMV), cutting a 4–5 hour manual process to 30 minutes (**~9x faster**).
• Led a price subsidy strategy with top sellers based on competitor pricing for top SKUs, delivering **10% MoM** revenue growth.

Cloud Product Management Intern, Cathay Financial Holdings, Taipei Jul. 2024 - Jun. 2025
"Smart Archie" | internal LLM assistant that turns dialogue into cloud architecture diagrams, reducing solution design time from days to minutes.
• Prioritized and shipped **4 features** from V0.4.0 to V0.4.1 with cloud architects and engineers in an Agile team, resolving top UX pain points based on user testing.
• Benchmarked 45+ AWS and GCP services against internal use cases, consolidating findings into a cloud adoption report that supported executive decision-making for cloud migration.

Data Analysis Assistant, NTU OpenCourseWare (OCW), Taipei Feb. 2025 - Jun. 2025
• Analyzed viewer behavior from **36M+ views** across **100+ OCW course videos**, introducing retention metrics (completion rate, drop-off) that replaced traditional click-based evaluation.

Competitive Analysis Intern, Shopee, Taipei Aug. 2023 - Jun. 2024
• Analyzed 1,000+ livestream sessions using Excel automation to identify audience retention patterns and recommend content strategy for future campaigns.

PROJECTS

Job Intelligence Agent — TypeScript, LLM API | Case study
• Built an AI agent that aggregates internship postings from 6 sources, ranks them by LLM match score, and drafts resume-grounded application materials, cutting 30+ min of daily manual search.
Competitor Price Tracker — Python, FastAPI, Gemini Vision | Case study
• Built a tool that extracts product data from Shopee/momo screenshots via Gemini Vision and generates side-by-side price comparisons with one-click CSV export.
